Temporary Scheme (at Riverside)

The classrooms for Riverside are very nearly finished and they are hoping to move in this month. This shows how quickly things can move once they get going and is very encouraging.

As time progresses it looks less likely that our own classrooms will be in place for January and although the project team are hopeful of a completion by January, February is now looking more realistic.

Permanent Scheme (at Hibbert Road)

Finally, demolition has started!

This work will take place over the next few weeks and completed before Christmas.

Preparations for the new build continue to take place behind the scenes and the project remains on track for completion by September 2019.
