

# Minibeasts

This half term we are entering the world of bugs, beasties and creepy crawlies!

We will be reading lots of exciting bug themed stories and using these to inspire a range of writing opportunities.

We are going to set up a wormery to investigate how worms live.

We will be focusing upon different minibeasts each week.

Our class trip this half term will be to Wellington Country Park where we will be Bug Detectives!

We will begin to work on problem solving skills in Maths, doubling and halving as well as counting in groups of 2, 5 and 10.

We will have specialist dance coaching every week this half term.
